

## Title Sponsor

### Jill Eiland

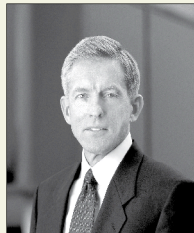

Oregon Public Affairs Manager  
Intel Corporation

hard work, you are here to celebrate your success. Intel employees applaud all those who have demonstrated they can solve problems in a team environment and stick with it despite the many challenges. We believe that's how we all learn to be successful. These skills will allow you to work well on a corporate team in the future, and we hope you will consider a career that includes the application of science, technology, engineering and math. In addition to making new friends and learning new skills through your robotics activities, you have also highlighted your leadership capabilities to your peers, your teachers, your mentors and parents. We hope you will continue to develop your talent and invite you to learn about other engaging activities by visiting the Techno Science Supersite at [www.BusinessEducationLinks.org](http://www.BusinessEducationLinks.org).

On behalf of my Intel colleagues, we wish you luck today and thank you for your participation.

Congratulations to all of the participants in the Intel Oregon **FIRST** LEGO League 2009 Championship. After all of that

## Presenting Sponsor

### Clay Jones

Chairman, President and CEO  
Rockwell Collins

designed to take learning out of the textbooks and into the hands of students. We continue to inspire the next generation of engineers by engaging and motivating students.

Rockwell Collins is proud to be a presenting sponsor of ORTOP. We believe FLL creates hands-on experiences

## Platinum Sponsors

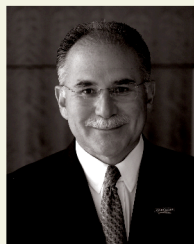

### Scott Grout

President and CEO  
RadiSys Corporation

throughout their school years and in their work life. Ongoing learning is exactly the type of learning that we also seek in our job candidates and employees. We are excited and pleased to be involved in helping provide learning opportunities to the young students involved in ORTOP.

ORTOP provides Oregon youth the opportunity to create new skills, generate ideas, and create the ongoing learning that will serve them well

### Allen Alley

Tech America Oregon  
Board Chairman and  
Co-founder of Pixelworks

with skills in science, technology, engineering and math. As the innovators of tomorrow, you will help us tackle our society's greatest challenges and drive prosperity across our economy.

TechAmerica is proud to be a platinum sponsor of the ORTOP program. America's future depends on today's young, creative minds learning to solve problems

## Supporting Sponsors

## Community Partners

**Girl Scouts®**  
Where Girls Grow Strong™

The Oregon Robotics Tournament and Outreach Program wishes to thank our Community Partners for their support of the *FIRST* LEGO League, Junior *FIRST* LEGO League and *FIRST* Tech Challenge programs. Staff members and volunteers from these organizations have contributed time, energy and ideas to improve the delivery of the *FIRST* programs. Several community partners contributed resources to hold ORTOP workshops and awareness events at their facilities to broaden our reach to Oregon's youth. They also share our mission to open the doors to the worlds of science and technology for all of Oregon's youth by being inclusive of students who may not otherwise participate in *FIRST* LEGO League.

*ORTOP values our collaboration*

## Acknowledgements

*Thanks to Doug Vorwaller for contributing photographs to this Championship Event Program.*

*Thanks to our Championship Photography Team for taking photographs of this weekend event.*

*Thanks to Lily, Katie and Maribeth for being our Smart Move dancers!*

*Thanks to Jo for creating the Smart Move costumes.*

## Attention

**N**o food or drinks may be taken outside of the commons area/cafeteria. Please do not bring food or drink items into the gym.

**T**eams will be reporting to designated rooms at specific times for the Robot Design, Project and Teamwork Judging. Team coaches received a master schedule of these times upon registering. Times were also noted on the ORTOP website 3 days before the Championship tournament for the convenience of teams and their guests.

**T**he Project Judging is open to teams, coaches, mentors and parents of the team members. Very young children will not be allowed into the Project judging room. Parents should ask at the "Families-of-Teams" table at the end of the Judging hall for more information. The Technical and Teamwork Judging is open only to teams and coaches.

**P**arents and Guests are kindly asked not to enter the Pit practice areas. They are reserved for teams, judges and event staff.
